

## Omo Professional Active Clean

### Offentliggørelse af liste over indholdsstoffer

Produktreference: MS1001849

## Omo Professional Active Clean

Diversey Europe Operations BV, Maarssenbroeksedijk 2, 3542DN Utrecht, The Netherlands

| Indholdsstof(fer)                                                                                            |
|--------------------------------------------------------------------------------------------------------------|
| Aqua                                                                                                         |
| Sodium Dodecylbenzenesulfonate                                                                               |
| Laureth-7                                                                                                    |
| sodium laureth sulfate                                                                                       |
| TEA-Dodecylbenzenesulfonate                                                                                  |
| C12-18 fedtsyrer, reaktionsprodukter med triethanolamin                                                      |
| Sodium Chloride                                                                                              |
| Sodium Diethylenetriamine Pentamethylene Phosphonate                                                         |
| Parfum                                                                                                       |
| ethoxyleret polyethylenimin                                                                                  |
| Triethanolamine                                                                                              |
| Butyl acrylate, methacrylic acid, methyl methacrylate polymer                                                |
| 1,4-Benzenedicarboxylic acid, 1,4-dimethyl ester, polymer                                                    |
| Propylene Glycol                                                                                             |
| Glycerin                                                                                                     |
| Dinatrium-4,4-bis((6-anilino-4-((2-hydroxyethyl)methylamino)-1,3,5-triazin-2-yl)amino)stilben-2,2-disulfonat |
| Limonene                                                                                                     |
| Citronellol                                                                                                  |
| Octylisothiazolinone                                                                                         |
| Methylisothiazolinone                                                                                        |
| Subtilisin                                                                                                   |
| Sodium Lauryl Sulfate                                                                                        |
| Ethoxylated alcohol                                                                                          |
| Dimethicone                                                                                                  |
| FD&C Yellow #5                                                                                               |
| disubstitueret alaninamid [938-640-6]                                                                        |
| CI 42051                                                                                                     |
