

Certificate no. 2023-0367

Liplid AB
Svärdvägen 21
182 33 Danderyd
Sweden**CERTIFICATE OF CONFORMITY**
Food contactProduct: *Liplid Lids, 80 and 90 mm*

The above product, submitted by Liplid AB, was examined in order to establish whether this product quality is suitable for use in packages, or other products, intended for contact with foodstuffs.

As an independent party, we have judged the suitability with respect to composition and purity, referring to the following regulations:

- Regulation EC 1935/2004 (with regard to raw materials and additives)

Based on the analytical results from testing the product mentioned above, and the specifications supplied by Liplid AB, the quality of these products is judged to meet the requirements of the regulation referred to above.

This paper grade also meets the *analytical requirements* of BfR XXXVI (all food types, at temperatures up to 90 °C), when tested with extracts. This includes the requirements in the preamble of BfR XXXVI, as well as analysis of biocides, formaldehyde, glyoxal, AKD, monochloropropane-1,2-diol (3-MCPD) and 1,3-dichloro-2-propanol (1,3-DCP).

This means that this product quality may safely be used in packages, or other products, intended for direct contact with foodstuffs, according to the conditions of use and temperatures specified for each regulation/recommendation, with the following limitation:

Limit: a maximum of 2.5 dm² of the material may be used in contact with 1 kg of foodstuff

This certificate has a validity of 2 years, provided that the composition of the product mentioned above is in no way changed, and no changes are made in the requirements of the current legislation.
