### SYSTEM

Flat mopping system with pockets, to be used either pre-soaked, soaked on demand with soaking station or with handles with tank  
 Ideal for any surface and kind of dirt thanks to the combination of the 3 fibres: cotton for its absorption power, microfibre for its dirt collecting power and polyester for greasy dirt and low friction

### GREEN BOX

**DECITEX of the fibres**  
 Microfibre: 0,52 DTX

**Eco-sustainable in healthcare and general facilities:** microfibre requires less chemical to remove dirt and bacteria, thus reducing consumption, and it is more resistant than cotton

### Advantages

- **Long durability:** pocket mops last twice as much as strap tape mops
- **Easy:** mop changing is easy and quickly
- **Multipurpose** the combination of different fibres allows making many operations with one single mop
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria
- **Touch-free:** the detaching system avoids any contact with the dirt

### Material

Yarn: polyester, cotton, microfibre - Support: polyester
