## ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

### **Product**

Marble Holder LED; Bright

### **Raw Material**

Natural stone, acrylic plastic

### **Packaging**

Inner: no inner package

Outer: Cardboard carton with inside separators and protection zone

### **Field Of Application**

Indoor and Outdoor use.

Unique bottom solution fitting for the rechargeable Duni LED set (Art No 165735 and 171486).

### **EC Directive 94/62/EC on Packaging and Packaging Waste**

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

### **Environmental Aspects**

#### **Product**

The product is manufactured from real natural stone, each one with a unique look.

#### **Packaging**

PE foil is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen. The corrugated board box is made from wood, which is a renewable resource.

### **Product Safety**

Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

### **Management Of Used Products**

#### **Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

#### **Recycling**

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

#### **Validity**

This is a copy of a document issued 2017-12-01. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Customer Service or CSR & Quality Department.
